UBC02

Metal cladding on roof for above ground applications

Pedestrian gate with magnetic lock and access control

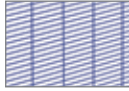

Either horizontal or vertical racks, or a combination of both can be used to store bicycles

PLEASE NOTE: Rack selection and AS2890 compliance could reduce the quantity of bicycles to be parked within the cage. Please consult our sales team for free layout drawings and advice.

Choice of mesh cladding

50 x 50 x 4mm galvanised wire mesh
INFILLWMESH

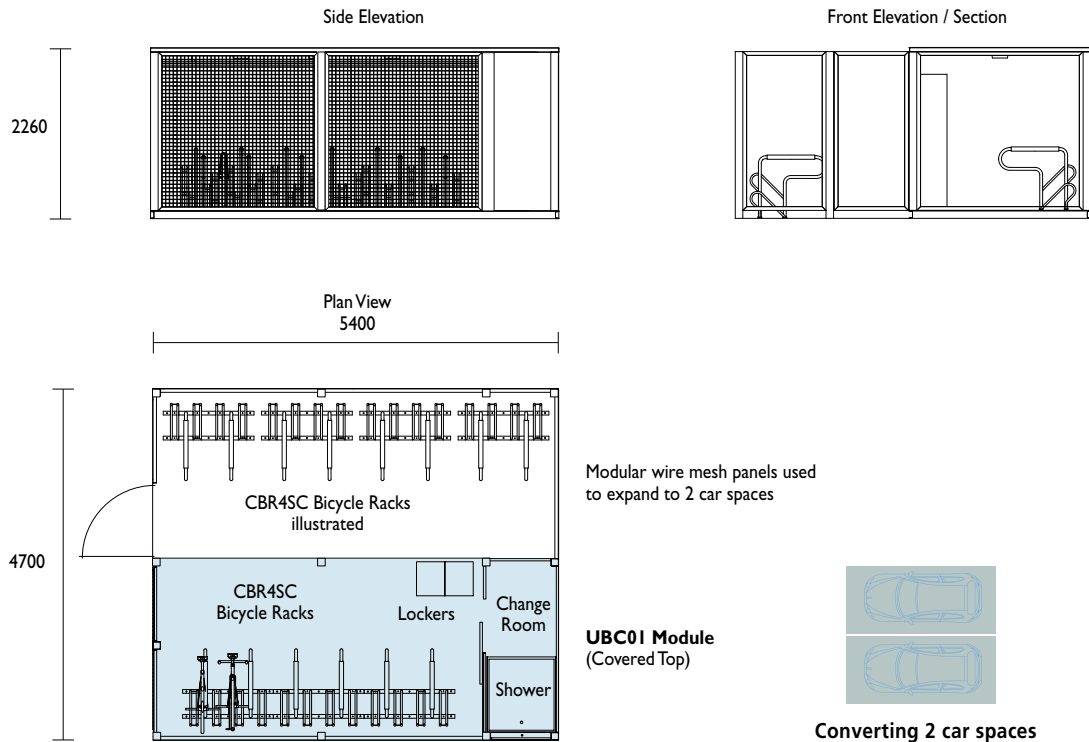

71 x 9 x 4mm security mesh (higher anti-cutting protection)
INFILLSCMESH

50 x 10mm timber slats
INFILLTIM50

In underground installations, modules can be easily connected to mains power and water / drainage services and can be expanded to 2, 3 or more car spaces providing secure cages catering for a larger number of cyclists. The Securabike modular design allows for the complete package to be delivered to the site in kit form and easily assembled thus avoiding the need for major building work.

Material Specifications (General)	
Structure	100 x 100 / 100 x 50 steel sections / Galvanised / Powder coated in a range of colours
Cladding	50 x 50 x 4mm / 71 x 9 x 4mm steel mesh / Metal cladding / Galvanised / Powder coated in a range of colours
